On the Subject of Melody Sequencer

Harmony and Melody... creating both are the musicians greatest feat.

Melody Sequencer is a module where you have to listen to different parts of a melody and arrange them accordingly. You also need to create your own parts.

4 parts is given, 4 parts need to be created.

Selecting a part

- Select the part you want to listen to with the up and down arrows.

Listening to a part

- Press the green button to listen to that part.
- The notes that this part contains are displayed in the upper screen

Moving a part

- If you need to move a part to another position, press the yellow button while you are at the part you want to move. The screen also tells you that you selected that part.
- Move to the part you want your selected part to move to with the up and down arrows and press the yellow button again.
- **If the moved part is in the incorrect position you will incure a strike!**

Creating a part

- Select a part you want to create and press the red button. The upper screen will display "Record"
- Input the correct sequence of notes for that part with the 24 black and white buttons
- **Pressing an incorrect note will incur a strike!**
- If your input is correct, that part will be saved

The module is solved one all parts are created and in the correct position

The table on page 2 contains the correct order of the parts and the correct sequence of notes for every part

Part 1	D4, F4, A4, F4, A#4, F4, A4, F4
Part 2	D4, F4, A4, C5, D5, A5, D5, C5
Part 3	F5, D5, F5, A5, A#5, F5, A#5, A5
Part 4	G5, E5, G5, E5, C5, E5, C5, A4
Part 5	G4, E4, G4, E4, A4, E4, A4, F4
Part 6	A#4, F4, A#4, G4, C5, G4, C5, A4
Part 7	D5, A4, D5, G4, C5, G4, C5, F4
Part 8	A#4, F4, A#4, E4, A4, E4, A4, C4
